

Welcome to the World of Die Casting

Company presentation

Frech Product Range

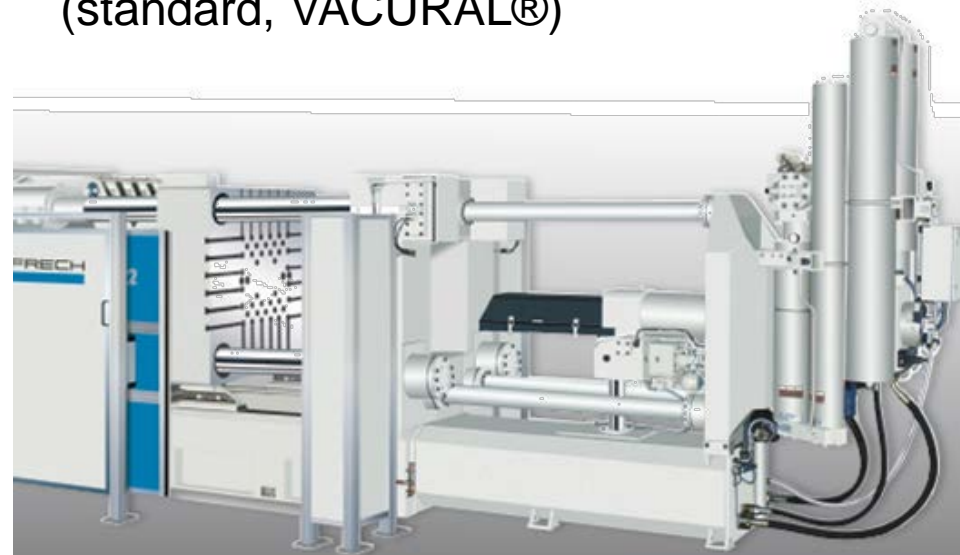

HOT Chamber Diecasting Machines

- Locking forces from 50 kN - 9300 kN
- Application : Zn, Mg, Pb
- Machine types: hydraulic, fully-electric, hybrid
- Different technological standards

COLD Chamber Diecasting Machines

- Locking forces from 1,25 MN - 50MN
- Application: Al, Mg
- Machine types: hydraulic, RC and DD
- Different technology standards and processing technologies: (standard, VACURAL®)

Services

- Condition Monitoring
- RSD
- Worldwide Service Network
- Replacement components
- Overhaul competences
- Training
- FACS (customer support)
- Spare and wearing parts
- Simulation
- Technical consultation, engineering
- Sample casting (prototyping)

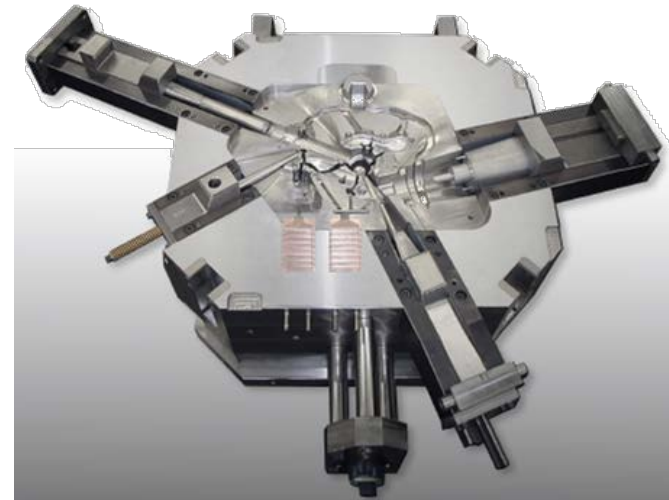

Tools

Druckgießformen bis 1200 x 1200 mm
All from a single source:

- Services
- Simulation
- Construction
- Sampling
- Measuring
- Trimming tool
- FGS

Customer

The one source solution !

Die
